EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael C. Soldner on July 21, 2004.

The application has been amended as follows:

Replace Claim 8 with:

A medical data transfer system comprising:

a remote center;

an implantable medical device having a hemodynamic monitor providing cardiac pressure data to the remote center;

an information remote monitor operable to establish wireless communication with the implantable medical device to obtain cardiac pressure readings for a patient;

an external pressure reference device operable to obtain external barometric pressure data correlated with patient cardiac pressure data obtained by said information remote monitor and adapted to be coupled to said information remote monitor to enable correction of cardiac pressure data;

said information remote monitor, upon confirming that the external pressure reference device is coupled thereto operating to obtain implantable medical device cardiac

pressure data, download external barometric pressure data from the external pressure reference device, initiate transmission over a communication link of cardiac pressure data and downloaded external barometric pressure data; and

a communication link between the information remote monitor and the remote center.

2. The following is an examiner's statement of reasons for allowance: the new examiner has reviewed the previous office actions and agrees with all of the applicant assertions under Remarks section B, which comments on the 103 type obviousness type rejection, and concludes that Krichen's data transfer is not compatible with Halperin invention. Specifically, Krichen teaches a "data dump" of implantable medical device information and the combination of the references lacks an adequate and sufficient statement for motivation to combine to reject claim 8. As such, the previous rejection is withdrawn. Additionally, the above examiner's amendment was created to clarify the preamble of the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael C Astorino whose telephone number is 703-306-9067. The examiner can normally be reached on Monday-Friday, 10:00AM to 4:00PM.
